

## **Incident Report: IM-10340-Access Secure Documents**

**Date: 10-19-2021**

### **Executive Summary:**

Prospersec was contracted by TTA Bookstore to conduct some penetration testing on the bookstores website. The main goal is to see if we can access some secured documents.

### **Application Details:**

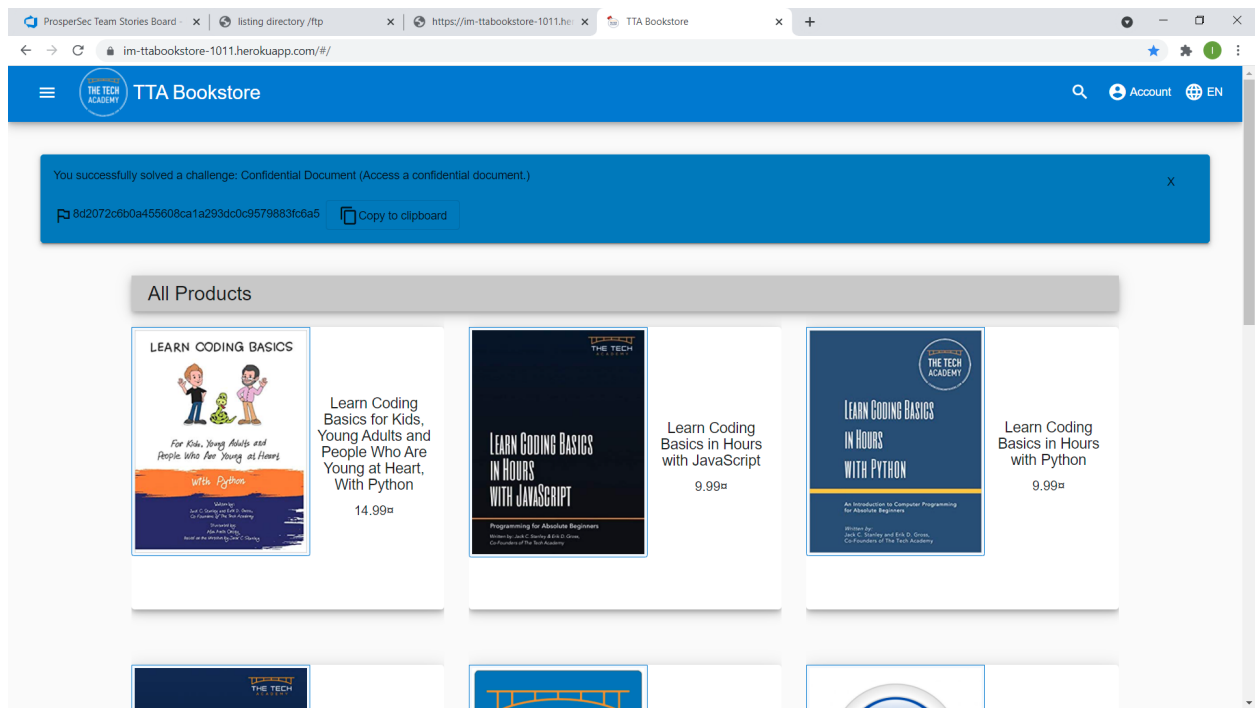

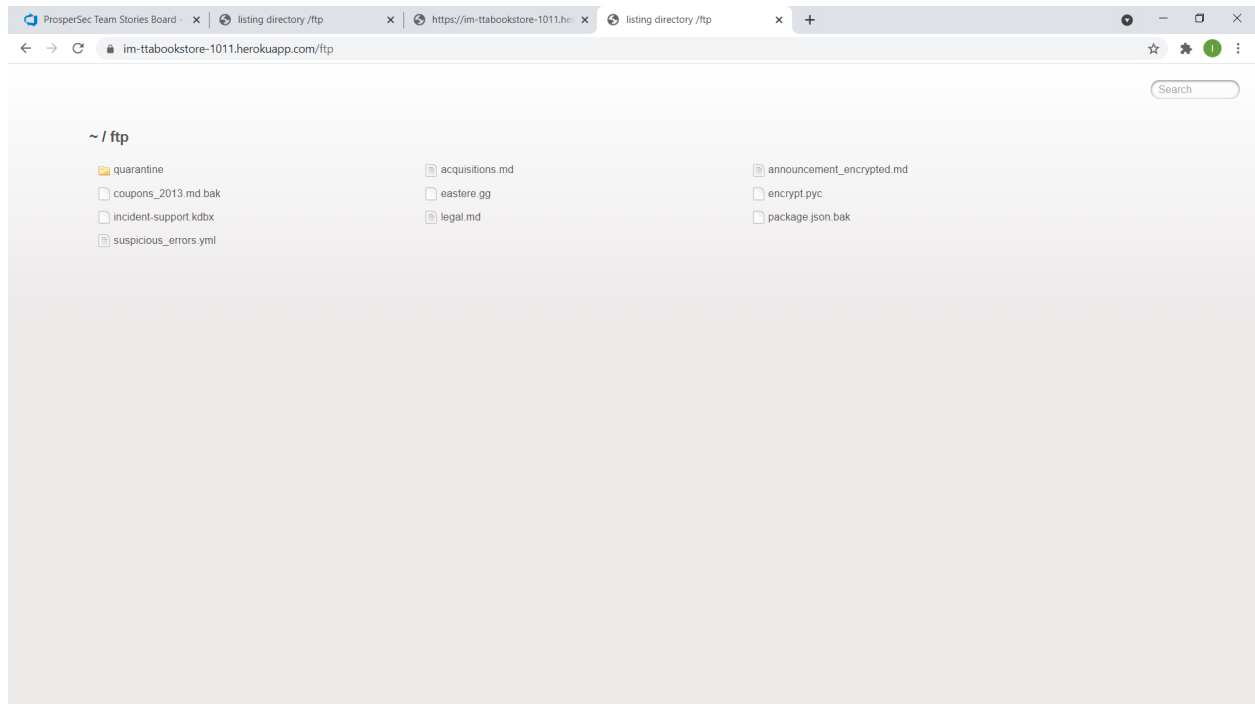

- **About me:** Secured documents vulnerability

### **Attack Narrative:**

Looked at the information that was presented, and we reviewed what was presented. Was able to gain access to some secured documents.

### **Conclusion:**

Prospersec was contracted by TTA Bookstore to look for vulnerabilities. Looked around the site and was able to find a link in the about me section, and once I navigated to that link it was noticed that it was coming from an FTP file server. I notice that the link had “/ftp/legal.md” so what I did was delete “/legal.md” and left “/ftp” with the rest of the domain and took me to the hidden documents and had total access.
